## PureTask — Operational Launch Checklist

**Document 12 Version: 1.0**

This is the **sequenced operational plan** for getting PureTask from current state (sole proprietorship, no LLC, no live platform) to **first paid Booking** with full legal, financial, technical, and operational readiness.

The plan is structured as **6 phases** spanning approximately **8–12 weeks**. Each phase has hard dependencies on the prior phase. Some work within a phase can run in parallel (noted as “Track A / Track B”). Treat this like a Gantt chart — boxes don’t move unless their dependencies are clear.

**Critical-path items are marked with ☐. Slipping these slips the launch.**

---

### At-a-Glance Timeline

| Phase          | Duration | Focus                               | Gate to Next Phase                                  |
|----------------|----------|-------------------------------------|-----------------------------------------------------|
| <b>Phase 1</b> | Week 1-2 | Entity formation                    | LLC formed; EIN obtained                            |
| <b>Phase 2</b> | Week 2-4 | Banking, insurance, vendor accounts | Business bank account live; insurance bound         |
| <b>Phase 3</b> | Week 3-6 | Tech infrastructure                 | App + Stripe Connect Express operational            |
| <b>Phase 4</b> | Week 4-6 | Legal document execution            | All vendor DPAs signed; ToS/Privacy/etc. published  |
| <b>Phase 5</b> | Week 6-8 | Pilot / soft launch                 | ≥5 successful Bookings completed without incident   |
| <b>Phase 6</b> | Week 8+  | Public launch                       | Marketing live; SMS/email infrastructure registered |

## Phase 1 — Entity Formation (Week 1–2)

**Goal:** Move PureTask from sole proprietorship to a California LLC with separate legal existence.

| #   | Task                                                                                                                                            | Dependen<br>cy | Time  | Owner  | Cost                      |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-------|--------|---------------------------|
| 1.1 | ☐ Engage California business attorney for 1-hour consultation on LLC formation specifics.                                                       | None           | 1 wk  | Nathan | \$300–800                 |
| 1.2 | ☐ File <b>Form LLC-1 Articles of Organization</b> with California Secretary of State (bizfileonline.sos.ca.gov).                                | 1.1            | 1 day | Nathan | \$70                      |
| 1.3 | Reserve and verify the registered agent (self-serve as Nathan, or hire a registered agent service like Northwest, ZenBusiness, Wolters Kluwer). | 1.2            | 1 day | Nathan | \$0 (self) / \$125–300/yr |
| 1.4 | ☐ Adopt the                                                                                                                                     | 1.2            | 1 day | Nathan | \$0                       |

| #   | Task                                                                                                                                                     | Dependen<br>cy | Time  | Owner  | Cost  |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-------|--------|-------|
|     | <b>Operating Agreement</b><br>(Doc 09)<br>by<br>executing<br>as sole<br>member.<br>Retain in<br>business<br>records —<br>do <b>not</b> file<br>with SOS. |                |       |        |       |
| 1.5 | □ Apply for<br><b>EIN</b> from<br>IRS<br>(irs.gov;<br>free;<br>online;<br>~10<br>minutes).                                                               | 1.2            | 1 day | Nathan | \$0   |
| 1.6 | File <b>Form<br/>LLC-12<br/>Statement<br/>of<br/>Information</b><br>with<br>California<br>SOS within<br>90 days of<br>formation.                         | 1.2            | 1 day | Nathan | \$20  |
| 1.7 | Pay <b>\$800<br/>California<br/>annual<br/>franchise<br/>tax</b> (FTB<br>Form<br>3522) by<br>the 15th<br>day of the<br>4th month<br>after<br>formation.  | 1.5            | 1 day | Nathan | \$800 |

| #   | Task                                                                                                                                                           | Dependen<br>cy | Time  | Owner  | Cost              |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-------|--------|-------------------|
| 1.8 | Register for Texas and Florida foreign qualification when ready to onboard Pros/Clients in those states (defer until Phase 6 unless launching simultaneously). | Pre-launch     | 2 wk  | Nathan | \$750–1,200/state |
| 1.9 | Record formation documents in secure cloud + offsite backup.                                                                                                   | 1.2–1.6        | 1 day | Nathan | \$0               |

**Phase 1 Exit Criteria:** - ☐ LLC-1 filing confirmation in hand - ☐ EIN letter (CP 575) in hand - ☐ Operating Agreement signed - ☐ All formation documents stored securely with backup

## Phase 2 — Banking, Insurance, Vendor Accounts (Week 2–4)

**Goal:** Establish the financial and operational infrastructure of PureTask LLC, separate from Nathan’s personal accounts.

### Track A — Banking & Finance

| #    | Task                                       | Dependen<br>cy | Time | Owner  | Cost        |
|------|--------------------------------------------|----------------|------|--------|-------------|
| 2A.1 | ☐ Open <b>business checking account</b> in | 1.2, 1.5, 1.4  | 1 wk | Nathan | \$0–\$15/mo |

| #    | Task                                                                                                                                                                                                           | Dependen<br>cy | Time   | Owner  | Cost                 |
|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|--------|--------|----------------------|
|      | PureTask<br>LLC's<br>name<br>(recommen<br>ded:<br>Mercury,<br>Relay,<br>Bluevine,<br>or local<br>credit<br>union).<br>Bring:<br>Articles of<br>Organizati<br>on, EIN<br>letter,<br>Operating<br>Agreement<br>. |                |        |        |                      |
| 2A.2 | Open<br><b>business<br/>credit card</b><br>in<br>PureTask<br>LLC's<br>name<br>(Chase Ink<br>Cash,<br>Amex<br>Business<br>Cash,<br>Capital<br>One<br>Spark).                                                    | 2A.1           | 1 wk   | Nathan | \$0/yr most<br>cards |
| 2A.3 | Set up<br>business<br>bookkeepi<br>ng<br>software<br>(QuickBoo<br>ks, Wave,<br>or Bench).<br>Connect to                                                                                                        | 2A.1, 2A.2     | 2 days | Nathan | \$0-\$80/mo          |

| #    | Task                                                                                                             | Dependen<br>cy | Time | Owner  | Cost           |
|------|------------------------------------------------------------------------------------------------------------------|----------------|------|--------|----------------|
| 2A.4 | business bank + credit card.<br>Engage a <b>CPA or bookkeeper</b> for quarterly tax estimates and annual filing. | 2A.3           | 1 wk | Nathan | \$500–2,000/yr |

#### Track B — Insurance

| #    | Task                                                                                             | Dependen<br>cy | Time   | Owner  | Cost             |
|------|--------------------------------------------------------------------------------------------------|----------------|--------|--------|------------------|
| 2B.1 | □ Obtain <b>Commercial General Liability (CGL)</b> policy for PureTask LLC. Minimum \$1M / \$2M. | 1.2            | 1–2 wk | Nathan | \$500–2,000/yr   |
| 2B.2 | □ Obtain <b>Technology Errors &amp; Omissions / Cyber Liability</b> policy. Minimum \$1M.        | 1.2            | 1–2 wk | Nathan | \$1,000–3,000/yr |
| 2B.3 | Obtain <b>Umbrella Liability</b> policy (excess coverage).                                       | 2B.1           | 1 wk   | Nathan | \$300–700/yr     |

| #    | Task                                                                                                                                                              | Dependen<br>cy | Time | Owner  | Cost             |
|------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|------|--------|------------------|
| 2B.4 | \$1M+<br>Confirm<br>personal<br><b>homeowne<br/>r's /<br/>renter's<br/>insurance</b><br>does not<br>exclude<br>business<br>activities;<br>add rider if<br>needed. | None           | 1 wk | Nathan | \$0-\$200/<br>yr |

### Track C — Business Identity & Communications

| #    | Task                                                                                                                                                                                                                                            | Dependen<br>cy | Time  | Owner  | Cost                                            |
|------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-------|--------|-------------------------------------------------|
| 2C.1 | Register<br><b>dedicated<br/>business<br/>email</b> (e.g.,<br>legal@pure<br>task.co,<br>support@p<br>uretask.co,<br>dmca@pure<br>task.co).<br>Currently<br>using<br>otherpureta<br>sk@gmail.c<br>om —<br>migrate<br>before<br>public<br>launch. | None           | 1 day | Nathan | \$6-18/<br>user/mo<br>(Google<br>Workspace<br>) |
| 2C.2 | Obtain<br><b>dedicated<br/>business<br/>phone<br/>number</b><br>(Google<br>Voice for                                                                                                                                                            | None           | 1 day | Nathan | \$0-\$30/mo                                     |

| #    | Task                                                                                               | Dependen<br>cy | Time    | Owner                | Cost                                   |
|------|----------------------------------------------------------------------------------------------------|----------------|---------|----------------------|----------------------------------------|
|      | free, or a VoIP like Grasshopper / OpenPhone).                                                     |                |         |                      |                                        |
| 2C.3 | Register PureTask <b>trademark</b> with USPTO (Word mark "PureTask"; design mark for Dash mascot). | None           | 8-12 mo | Nathan + IP attorney | \$250-350/class + attorney \$500-1,500 |
| 2C.4 | File <b>DMCA Designated Agent</b> registration with U.S. Copyright Office (dmca.copyright.gov)     | 2C.1           | 1 day   | Nathan               | \$6                                    |

**Phase 2 Exit Criteria:** - ☐ Business checking account active and funded with seed capital - ☐ Business credit card issued - ☐ CGL + Tech E&O policies bound, certificates of insurance in hand - ☐ Dedicated business email in use for legal communications - ☐ DMCA Designated Agent registered

### Phase 3 — Tech Infrastructure (Week 3–6, overlaps with Phase 2)

**Goal:** Build, configure, and security-harden the technical platform with Stripe Connect Express as the payment spine.

### Track A — Core Platform

| #    | Task                                                                                                                        | Dependen<br>cy | Time   | Owner  | Cost        |
|------|-----------------------------------------------------------------------------------------------------------------------------|----------------|--------|--------|-------------|
| 3A.1 | Finalize Supabase project (auth, database, row-level security).                                                             | None           | 1 wk   | Nathan | \$0-\$25/mo |
| 3A.2 | Implement <b>RLS policies</b> for every table containing PII, with explicit deny-by-default and role-based grants.          | 3A.1           | 1 wk   | Nathan | —           |
| 3A.3 | Implement <b>encryption at rest</b> for sensitive fields (last 4 of SSN/Tax ID, government-ID images, precise geolocation). | 3A.1           | 1 wk   | Nathan | —           |
| 3A.4 | Implement <b>audit logging</b> of all access to PII (who, what,                                                             | 3A.2           | 3 days | Nathan | —           |

| #    | Task                                                                                                                                                                                                                                                   | Dependen<br>cy | Time | Owner  | Cost |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|------|--------|------|
|      | when).                                                                                                                                                                                                                                                 |                |      |        |      |
| 3A.5 | Build <b>clickwrap acceptance</b> flow for ToS, Privacy Policy, AUP, SMS, and FCRA Disclosure (separate FCRA standalone ). Each clickwrap records: timestamp , IP, exact text accepted, checkbox state, version of document, user ID. Retain 5+ years. | 3A.1           | 1 wk | Nathan | —    |
| 3A.6 | Build <b>Pro signup flow</b> with FCRA standalone disclosure page (Doc 07) and Pro IC Agreement clickwrap (Doc 06) as distinct, separate signing steps.                                                                                                | 3A.5           | 1 wk | Nathan | —    |

## Track B — Stripe Connect Express

| #    | Task                                                                                                                                         | Dependen<br>cy | Time   | Owner  | Cost |
|------|----------------------------------------------------------------------------------------------------------------------------------------------|----------------|--------|--------|------|
| 3B.1 | □ Create Stripe account in <b>PureTask LLC's name</b> (using EIN, not Nathan's SSN).                                                         | 1.5            | 1 day  | Nathan | \$0  |
| 3B.2 | □ Activate <b>Stripe Connect</b> platform (Express accounts).                                                                                | 3B.1           | 2 days | Nathan | —    |
| 3B.3 | Implement <b>Pro onboarding</b> into Stripe Express (KYC flow). Each Pro creates own Stripe Express account.                                 | 3B.2, 3A.6     | 1 wk   | Nathan | —    |
| 3B.4 | Implement <b>payment flow</b> : Client charge → funds held in Stripe → Review Window → release to Pro Express account minus application fee. | 3B.3           | 2 wk   | Nathan | —    |

| #    | Task                                                                                                                                       | Dependen<br>cy       | Time   | Owner             | Cost |
|------|--------------------------------------------------------------------------------------------------------------------------------------------|----------------------|--------|-------------------|------|
| 3B.5 | Implement <b>tip flow</b> : post-completion add-on, 100% to Pro minus Stripe fees.                                                         | 3B.4                 | 3 days | Nathan            | —    |
| 3B.6 | Test <b>chargeback handling, dispute mediation, and payout failure</b> scenarios in Stripe test mode.                                      | 3B.4                 | 1 wk   | Nathan            | —    |
| 3B.7 | Confirm <b>agent-of-payee</b> documenta-<br>tion in place and Stripe contract acknowledges PureTask as marketplace, not money transmitter. | 3B.1, Doc 06, Doc 01 | 1 wk   | Nathan + attorney | —    |

#### Track C — Trust & Safety Vendors

| #   | Task                                                                                                 | Dependen<br>cy | Time   | Owner                        | Cost          |
|-----|------------------------------------------------------------------------------------------------------|----------------|--------|------------------------------|---------------|
|     | simulation.                                                                                          |                |        |                              |               |
| 5.5 | Collect pilot feedback. Bug triage. Fix critical issues.                                             | 5.4            | 1 wk   | Nathan                       | —             |
| 5.6 | Pilot retrospective. Document issues, owner sign-off on each.                                        | 5.4            | 2 days | Nathan                       | —             |
| 5.7 | Conduct <b>second accessibility audit</b> if first audit flagged issues.                             | 3E.5           | 1 wk   | Auditor                      | \$1,000–2,000 |
| 5.8 | Conduct <b>security review</b> of production environment. Penetration test optional but recommended. | Phase 3        | 1 wk   | Nathan + optional consultant | \$0–5,000     |

**Phase 5 Exit Criteria:** - ☐ ≥5 Bookings completed without incident - ☐ No critical bugs outstanding - ☐ Accessibility audit findings remediated - ☐ Security review complete

---

## Phase 6 — Public Launch (Week 8+)

**Goal:** Open the Platform to the general public in target markets, with marketing infrastructure live.

| #   | Task                                                                                                                                                                            | Dependen<br>cy | Time | Owner  | Cost              |
|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|------|--------|-------------------|
| 6.1 | Define <b>launch market</b> (recommended: start with Sacramento County, expand to Bay Area, then to Texas (Austin/Houston) and Florida (Miami/Orlando) as Pro density permits). | Phase 5        | 1 wk | Nathan | \$0               |
| 6.2 | □ If launching in Texas or Florida: file <b>foreign qualification</b> with each state's SOS.                                                                                    | 1.8            | 2 wk | Nathan | \$750–1,200/state |
| 6.3 | Confirm <b>insurance</b> covers operations in Texas and Florida (most CGL                                                                                                       | 2B.1           | 1 wk | Nathan | —                 |

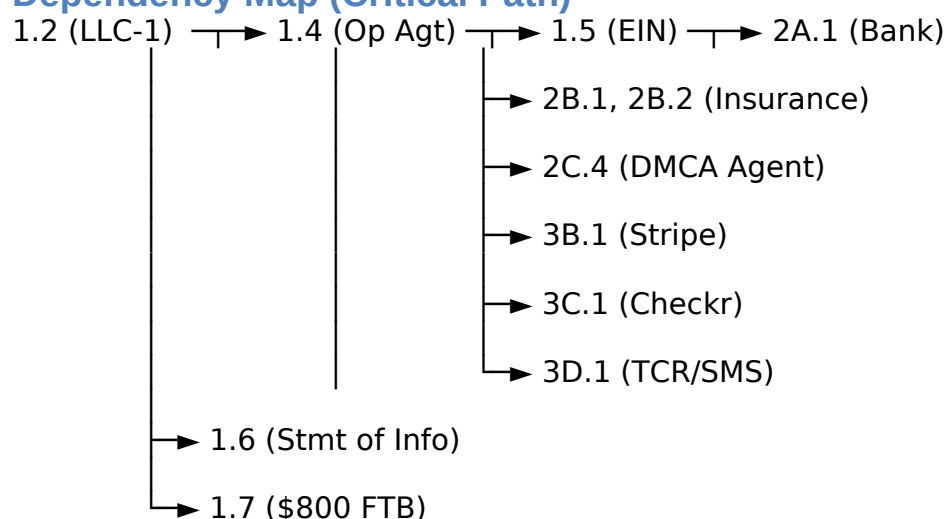

| #   | Task                                                                                                                        | Dependen<br>cy | Time    | Owner  | Cost                    |
|-----|-----------------------------------------------------------------------------------------------------------------------------|----------------|---------|--------|-------------------------|
|     | policies do automatically; verify with broker).                                                                             |                |         |        |                         |
| 6.4 | Launch <b>landing page</b> at puretask.co with clear value propositions, sign-up CTAs, and links to all legal documents     | Phase 4        | 1 wk    | Nathan | —                       |
| 6.5 | Set up <b>Google Business Profile</b> for PureTask LLC.                                                                     | 2C.1           | 3 days  | Nathan | \$0                     |
| 6.6 | Launch <b>paid acquisition</b> carefully — start with \$20–50/day budgets on Google Ads + Meta Ads in Sacramento ZIP codes. | 6.4            | Ongoing | Nathan | \$600–1,500/mo to start |
| 6.7 | Implement <b>referral program</b> (per CCPA                                                                                 | 6.4            | 1 wk    | Nathan | \$0                     |

| #    | Task                                                                                                                                         | Dependen<br>cy | Time    | Owner  | Cost        |
|------|----------------------------------------------------------------------------------------------------------------------------------------------|----------------|---------|--------|-------------|
|      | Notice of Financial Incentives in Doc 02 Section 15).                                                                                        |                |         |        |             |
| 6.8  | Launch <b>press / community outreach:</b> Reddit local subs, Nextdoor, local Facebook groups. Avoid spam — engage authentica lly.            | 6.4            | Ongoing | Nathan | \$0         |
| 6.9  | Set up <b>monitoring dashboard s</b> for: signup funnel, Booking completion rate, dispute rate, payment failure rate, support response time. | Phase 3        | 1 wk    | Nathan | \$0-\$50/mo |
| 6.10 | Set up <b>customer support intake</b> (email +                                                                                               | 2C.1           | 1 wk    | Nathan | \$0-\$80/mo |

| # | Task                               | Dependen<br>cy | Time | Owner | Cost |
|---|------------------------------------|----------------|------|-------|------|
|   | in-app + optional Intercom/Crisp). |                |      |       |      |

**Phase 6 Exit Criteria:** - ☐ First public sign-up - ☐ First paid Booking from an organic User (not pilot) - ☐ Marketing channels active - ☐ Monitoring + support live

### Dependency Map (Critical Path)

Phase 3 (build) — runs in parallel with Phase 2 once 1.2/1.4/1.5 done

Phase 4 (legal execution) — blocks on (Phase 1 + Phase 2 banking + Phase 3 tech) — critical path through 4.1, 4.2, 4.5

Phase 5 (pilot) — blocks on (Phase 4 execution + Phase 3 tech) — gate to Phase 6

Phase 6 (public launch) — only after Phase 5 exit criteria met

### Estimated Total Cost (Phase 1 through Phase 6)

| Category                                    | Estimated Range |
|---------------------------------------------|-----------------|
| State filing fees (CA + foreign qual TX/FL) | \$1,800–\$3,000 |
| First year CA franchise tax                 | \$800           |
| Attorneys (gig-economy +                    | \$4,500–\$9,000 |

| Category                                                  | Estimated Range          |
|-----------------------------------------------------------|--------------------------|
| consumer-tech)                                            |                          |
| Insurance (CGL + Tech E&O + Umbrella, year 1)             | \$2,000-\$5,000          |
| Trademark registration (Word + Design)                    | \$750-\$2,000            |
| Background-check + identity verification (first 100 Pros) | \$2,500-\$7,500          |
| Stripe + SMS + email + hosting (first 6 months)           | \$500-\$2,000            |
| Accessibility audit                                       | \$2,000-\$5,000          |
| Security review (optional)                                | \$0-\$5,000              |
| Marketing budget (3-month pilot)                          | \$1,800-\$4,500          |
| <b>Total to first paid Booking</b>                        | <b>\$16,650-\$43,000</b> |

This is a budget estimate. Actual costs vary depending on your appetite for legal review, marketing spend, and security investment. Reduce by deferring trademark registration, foreign qualification, and aggressive marketing; increase by adding penetration testing, multi-state launch at once, and stronger insurance.

### Risk Register (Top 5 to Track Throughout)

| # | Risk                                                                 | Mitigation                                                                                                                |
|---|----------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| 1 | <b>California ABC test reclassification</b> of Pros as employees.    | Pro IC Agreement, IC-friendly UX, attorney consultation, eventual TX/FL revenue dilution.                                 |
| 2 | <b>Money transmitter / escheat exposure</b> from holding User funds. | Stripe Connect Express with proper application-fee architecture; no PureTask-held balances; agent-of-payee documentation. |
| 3 | <b>FCRA / TCPA / CCPA class-action.</b>                              | Standalone FCRA disclosure (Gilberg), two-tier SMS consent, opt-out flows, GPC honoring, attorney review.                 |
| 4 | <b>Background-check gap leading to bad-actor Pro.</b>                | Checkr + identity verification +                                                                                          |

| # | Risk                                           | Mitigation                                                                                                                                                                                     |
|---|------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5 | <b>Veil-piercing if commingling continues.</b> | continuous monitoring; clear suspension protocols in AUP; insurance.<br>Strict separation of LLC accounts, business-name signage everywhere, Operating Agreement Appendix A hygiene checklist. |

### Owner Sign-Off

When each phase is complete, Nathan signs and dates:

| Phase                                 | Sign-Off | Date  |
|---------------------------------------|----------|-------|
| Phase 1 — Entity Formation            | _____    | _____ |
| Phase 2 — Banking, Insurance, Vendors | _____    | _____ |
| Phase 3 — Tech Infrastructure         | _____    | _____ |
| Phase 4 — Legal Document Execution    | _____    | _____ |
| Phase 5 — Pilot / Soft Launch         | _____    | _____ |
| Phase 6 — Public Launch               | _____    | _____ |
