PureTask – Privacy Policy

Effective Date: May 17, 2026 **Last Updated:** May 17, 2026
Version: 2.0

This Privacy Policy explains how **PureTask LLC**, a California limited liability company (“**PureTask**,” “we,” “us,” or “our”), collects, uses, discloses, retains, and protects personal information when you use our website, mobile applications, and related services (the “**Platform**”). It also describes your privacy rights under the **California Consumer Privacy Act / California Privacy Rights Act (“CCPA/CPRA”)**, the **Texas Data Privacy and Security Act (“TDPSA”)**, the **Florida Digital Bill of Rights (“FDBR”)**, and other applicable laws.

By using the Platform, you agree to this Policy. If you do not agree, do not use the Platform.

1. Who We Are; Contact

The “data controller” or “business” responsible for your personal information is:

PureTask LLC Sacramento, California, USA Email:
otherpuretask@gmail.com

For privacy requests, use the subject line “**Privacy Request.**”

A “Do Not Sell or Share My Personal Information” / “Limit Use of My Sensitive Personal Information” link is available in the footer of every page and in the mobile app settings menu (see Section 10).

2. Notice at Collection

At or before the point of collection, we provide a short “**Notice at Collection**” disclosing the categories of personal information we collect, the purposes of collection, and whether information is sold or shared. This Privacy Policy serves as the long-form notice. The short-form Notice at Collection is provided at signup and in the mobile-app onboarding flow.

3. Information We Collect

We collect personal information in the following categories, mapped to the CCPA/CPRA categories under **Cal. Civ. Code § 1798.140(v)**:

3.1 Information You Provide

CCPA Category	Examples
Identifiers	Name, email, phone, account ID, IP address.
Customer records / contact info	Mailing address, billing address, profile photo.
Characteristics of protected classifications	Age (to verify 18+), language preference.
Commercial information	Booking history, transaction records, preferences.
Geolocation data	Service area, property address (precise location with consent for arrival check-in).

CCPA Category	Examples
Sensory data	Photos uploaded by Users (before/after, profile).
Professional/employment info (Pros)	Business license, EIN, insurance certificate, certifications.
Inferences	Reliability indicators, service preferences.
Sensitive personal information (Pros)	Last 4 of SSN or Tax ID (for IRS reporting), date of birth, government-issued ID, background-check authorization.

3.2 Information Collected Automatically

- **Device and usage data:** IP address, device type, OS, browser, app version, language, time zone, referrer, pages viewed, features used, crash logs, session duration.
- **Approximate location** (from IP) and, with your permission, **precise GPS location** for arrival/departure check-ins (Pros) or service-area matching.
- **Cookies and similar technologies:** see our [Cookie Policy](#).

3.3 Information from Third Parties

- **Stripe, Inc.** — payment status, risk signals, payout records.
- **Identity verification and background-check vendors** (for Pro onboarding only, under a separate **Standalone FCRA Disclosure and Authorization**).
- **Mapping/geocoding providers** (e.g., Google Maps).
- **Analytics and fraud-prevention providers.**
- **Referral sources** — when another User refers you to the Platform.

We do not knowingly collect personal information from anyone under 18.

3.4 In-App Communications

Messages exchanged between Users through the in-app messaging system are stored on our infrastructure for a limited time (typically 90 days post-Booking) to support dispute resolution, fraud prevention, and trust and safety. Users should not exchange highly sensitive information (financial account numbers, SSNs, passwords) in messages.

4. Sensitive Personal Information

The CCPA/CPRA defines certain data as “**Sensitive Personal Information (SPI)**.” For Pros, this includes the last 4 of SSN or Tax ID (for IRS reporting), precise geolocation (during active check-ins), and government-issued ID.

PureTask uses SPI **only for purposes that are reasonably necessary** to provide the Platform: identity verification, tax reporting, fraud prevention, and trust and safety. We do not use SPI to infer characteristics about Users, for advertising, or for any purpose unrelated to those listed. Accordingly, under Cal. Civ. Code § 1798.121, the right to limit use of SPI **does not apply** to our current processing. You may still submit a request to limit; we will respond as required by law. We will reassess this position annually.

5. How We Use Personal Information

We use personal information to:

1. **Provide the Platform** — create accounts, match Clients with Pros, process bookings and payments, deliver notifications.
2. **Verify identity, trust, and safety** — confirm Pro eligibility, perform background and watchlist screening, detect fraud, prevent abuse.
3. **Process payments and payouts** — facilitate Stripe Connect charges, application fees, and tax forms.

4. **Communicate** — send transactional messages, service announcements, and (with consent where required) marketing.
5. **Personalize and improve** — tailor matching, recommendations, and content.
6. **Analytics and research** — measure usage, debug, develop new features.
7. **Legal and compliance** — comply with laws, respond to legal process, enforce Terms, protect rights, property, and safety.

5.1 Automated Decision-Making and Profiling

The Platform uses automated processes to: - **Match Clients with Pros** based on availability, service area, ratings, and Client-stated preferences; - **Detect fraud** (unusual login patterns, payment anomalies); - **Compute Reliability Indicators** from neutral signals (on-time arrival, completion rate, dispute history).

These automated processes are **not** used for decisions that produce legal or similarly significant effects (e.g., we do not auto-deny Pro applications without human review of background-check results). You may request human review of any matching or fraud-detection outcome by emailing otherpuretask@gmail.com.

5.2 Legal Bases (where applicable)

Where the **GDPR or UK GDPR** applies (we do not currently market in EEA/UK and geo-block where feasible), legal bases include contract performance, legitimate interests (fraud prevention, product improvement), consent (marketing emails, precise location), and legal obligation.

6. How We Share Personal Information

6.1 Recipients

- **Other Users** — to enable a Booking. Clients see Pro names, photos, ratings, and approximate service area. Pros see Client

first name, Booking address (only after assignment), and access notes. Reviews are visible to the User community.

- **Service providers and processors:**
 - **Stripe, Inc.** — payment processing, Stripe Connect Express payouts, identity verification.
 - **Supabase** — hosting and authentication.
 - **OneSignal** — push notifications.
 - **Lovable Analytics** (or equivalent) — usage analytics and error tracking.
 - **Background-check vendor** (e.g., Checkr, Sterling) — Pro screening.
 - **Email/SMS providers** (e.g., Twilio, SendGrid) — transactional and marketing communications.
 - **Cloud infrastructure providers** — storage and compute.
- **Legal and safety recipients** — law enforcement, regulators, and others when disclosure is necessary to comply with law, enforce Terms, or protect rights, property, or safety.
- **Business transfers** — in connection with a merger, acquisition, financing, reorganization, or sale of assets.
- **With your consent** — for any other purpose disclosed to you.

6.2 Sale and Share

We do **not** sell personal information for monetary consideration. We may **share** limited identifiers and online activity with advertising partners for cross-context behavioral advertising, which qualifies as a “sale” or “share” under CCPA/CPRA; you may opt out via the “Do Not Sell or Share” link (Section 10). We honor the **Global Privacy Control (GPC)** browser signal as an opt-out.

6.3 Categories Disclosed in Prior 12 Months

In the prior 12 months, we have disclosed for a business purpose: identifiers, customer records, commercial information, geolocation, internet/network activity, professional information, and (for Pros) sensitive personal information. We have **not** sold any personal information for monetary consideration.

7. Aggregated and De-Identified Data

We may use aggregated, anonymized, or de-identified data (where individuals cannot reasonably be re-identified) for any lawful purpose, including product improvement, analytics, marketing, and research. De-identified data is **not** considered personal information. PureTask commits to:

- Implementing technical safeguards preventing re-identification;
 - Maintaining business processes specifically prohibiting re-identification;
 - Contractually obligating recipients of de-identified data not to attempt re-identification;
